

Partner with the UK's fastest growing ISP for education

Fast, secure and reliable broadband
designed for schools

Revolutionising cloud based communications technology

The world's best web filtering and security services

Schools Broadband provides complete internet connectivity packages to primary schools, secondary schools, SEN Schools, colleges and universities.

We combine unique leading edge, cloud hosted technology with two of the world's foremost Web Filtering and Security companies, Fortinet and Netsweeper, enabling your customers affordable access to one of the best Web Filtering and Security services available.

A privately owned company, and part of the Talk Straight Group, we are members of the Internet Watch Foundation and have been delivering cutting edge communications technology to thousands of public and private sector organisations since 2007.

Complies fully with DfE, Prevent monitoring and reporting regulations, together with added GDPR features.

Packages for all partners

Whether selling services under your own brand or the Schools Broadband brand, we have a partner package to meet your needs. We're a straight-talking company whose partnerships are based on trust and integrity. To find out more speak to one of our regionally based Account Managers who will help tailor a partner agreement to suit you.

Our pledge to our partners

Support Partner

A proven and alternative to local authority, and other broadband providers

Keep ahead of the curve

As leaders in our field, our innovative technology keeps our partners well ahead of the curve. Our hosted service provides a robust and secure network dedicated entirely to education, where all internet traffic passes through industry-leading filtering and the world's best security. Direct links into Google's UK network gives a superior browsing experience, returning faster than average search results.

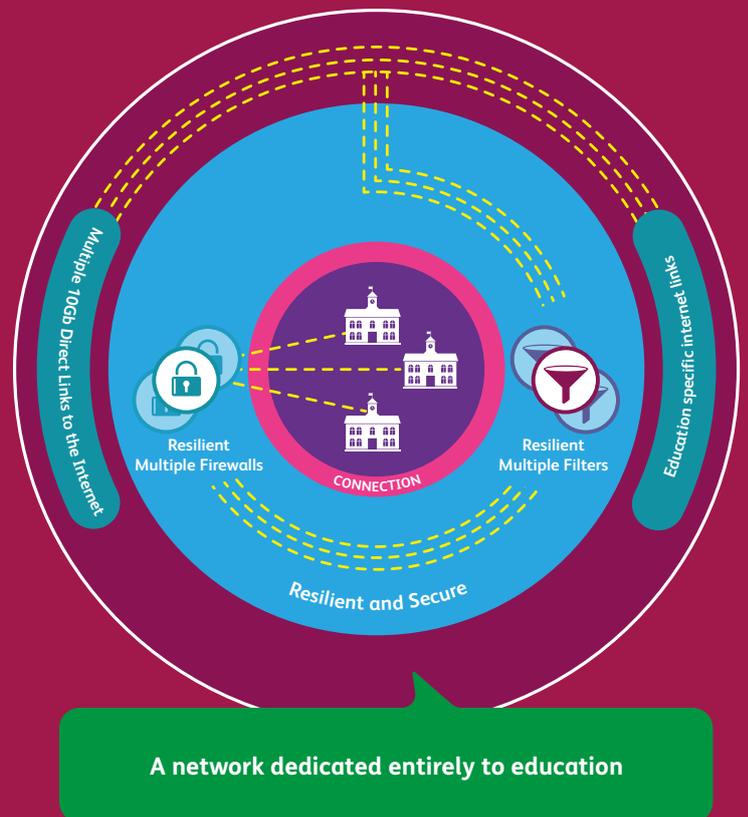

We have direct partnerships with the principal wholesale providers: BT, Virgin and Talk Talk, together with smaller providers, allowing the best possible connection types, speeds and quality, at the best possible price.

Full visibility of customer network traffic

Our real-time Customer Portal will give partners the ability to access up-to-the minute network statistics on customer bandwidth usage and circuit status, enabling full visibility and control, plus proactive management of your schools' bandwidth requirements.

Competitive commissions, support and advice

We have a competitive commissions programme that gives you a share of revenue generated from each contract. Together we will develop a go-to-market plan appropriate for your target market, and our Education Account Managers will work with you to realise this through sales and marketing support.

A network dedicated entirely to education

Our established and experienced UK based teams provide our partners with a range of support services, ensuring professionalism at all times.

- Regionally based Education Account Managers
- UK based Technical Support Desk open 8am-6pm Monday to Friday
- Fully experienced Prince 2 qualified Service Delivery team
- UK based Network Operations Centre staffed by fully qualified and Fortinet certified engineers

A network built on world-leading carrier grade technologies

Products

Leased Lines	Giga Fibre	FTTC	EoFTTC	ADSL
Secure VPLS	Hosted VoIP	SIP Trunks	Secure Wi-Fi	Mobile Device Management

Unparalleled Security

Our unique partnership with Fortinet, the global leaders in next generation firewalls, means our Managed Security Service is built on world-leading carrier grade technologies. It is the only one of its kind dedicated to education in the UK.

The advantages

- Full visibility, granular control and real-time protection against the latest Advanced Persistent Threats
- One single, simplified system combining firewalls, intrusion prevention, antivirus, e-mail filtering and application control
- Hourly system updates and Monitoring 24/7/365
- Data Loss Prevention GDPR compliance feature
- Control to apps such as iPlayer or Microsoft updates
- Application control

Retain complete visibility and control of your schools' networks if required.

A cut above
other ISPs

World-leading web filtering

Our enhanced filtering solution, launched in January 2018, is based on the industry leading Netsweeper platform. In response to schools' increasing use of bandwidth, changes in DfE filtering guidelines and Prevent Duty regulations, our £500,000 investment means we can deliver superior world-leading filtering technology for your schools.

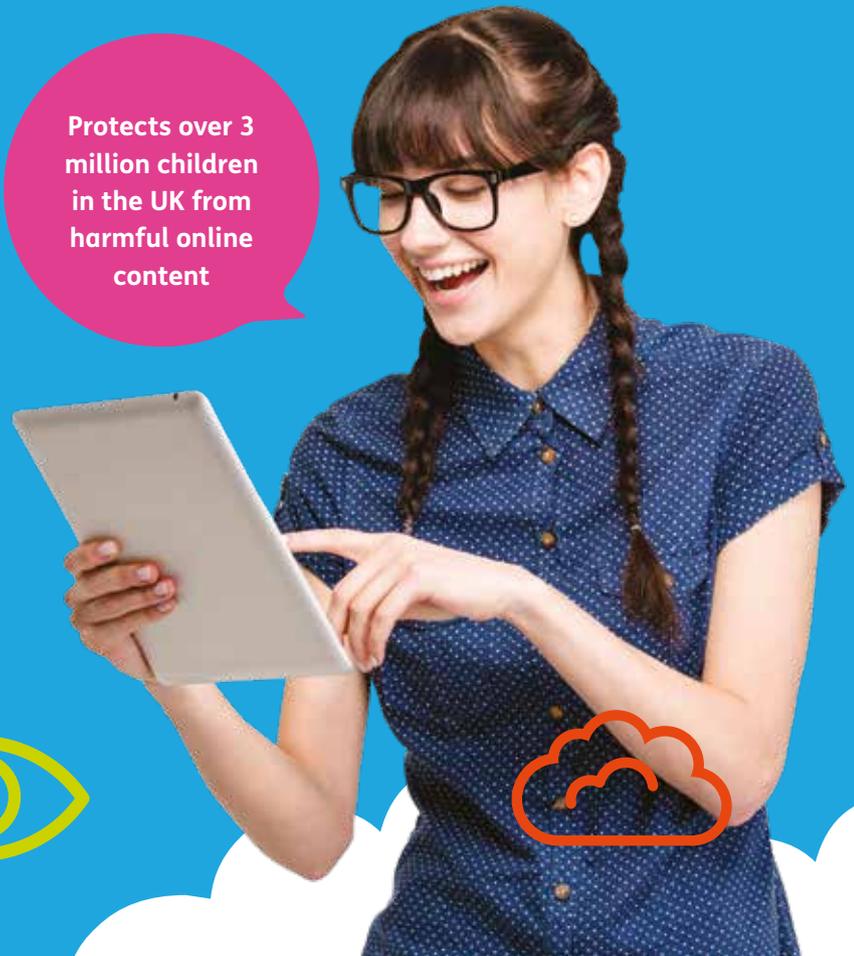

The advantages

- Search websites and images safely with proactive Prevent compliant reporting
- Suspicious search alerts and reports
- Tailor internet access by user, group or domain
- Manage filtering policies centrally across multiple schools, for set periods
- Extend web filtering policies to off network devices with Mobile Device Management

Our multiple content filters ensure a fail-safe filtering service, giving you the ability to perform software upgrades seamlessly, without downtime. Multiple schools may also have the same internal IP address ranges.
