Filtering and Security Packages

Managed	Plus	Ultimate
Our Standard package includes everything to get you started: Industry leading router, firewall, DfE compliant filter and unlimited support from our highly qualified, UK based technical support teams.	Our Plus filtering & security package includes all the standard package features, plus different levels of group and individual monitoring and reporting on individual users in the school. Also includes proactive alerts and suspicious searches.	The Ultimate package includes all the features within both the Standard and Plus packages, together with Fortinet's industry leading Unified Threat Management. This protects your school against viruses and malware and gives granular control of "web apps" like Facebook and Youtube. It also lets staff remotely connect to school resources when off-site.
INCLUDED	+£350pa	+£650pa

Optional Bundles

Standard	Plus	Ultimate
<ul style="list-style-type: none"> School domain name Hosting 250Meg school website hosting 10 POP email accounts 	<ul style="list-style-type: none"> The Plus bundle includes everything in the Standard bundle together with unlimited Web hosting space. 	<ul style="list-style-type: none"> In addition to everything in the Plus bundle, the Ultimate bundle includes Google Mail/ Office 365 setup and support. Email migration service available
£250pa	+£350pa	£450pa

*The school will need to provide us with a BT telephone line to install this. If you do not have a line available, we can arrange installation at a cost of £110 with £150 per year line rental.
